

CALL FOR PAPER

29th IEEE/ACIS International Summer Conference on Software Engineering, Artificial Intelligence, Networking and Parallel/Distributed Computing

(SNPD2025)

June 25-27, 2025

Busan, South Korea

<https://acisinternational.org/conferences/snpd-2025/>

Sponsored by IEEE and ACIS International

In cooperation with Korean Society of Food and Agricultural Information Science, South Korea

Important Dates

Workshop/Special session proposal	January 10, 2025
Workshop/Special session acceptance notification	January 24, 2025
Full/Poster Paper submission deadline	April 1, 2025
Acceptance notification	April 18, 2025
Registration & camera-ready papers	April 30, 2025
Conference Dates	June 25-27, 2025

The conference will cover a broad set of research topics as:

New Advances and Practical Challenges in Software Engineering
AI-driven Requirements Engineering and Design in Software Development
Applications of Deep Learning in Predicting and Remediating Software Defects
Design and Optimization of Microservices Architecture
Continuous Integration and Deployment Practices under DevOps Environments
Recent Developments in Automation Testing Technologies for Software Quality Assurance
Role of Artificial Intelligence in Software Maintenance and Evolution Processes
Design and Implementation of Large-scale Parallel and Distributed Computing Systems
Research on Software Reliability and Security in Cloud Computing Environments
Performance Optimization and Tuning for Industrial-grade Software Systems
Quantum Software Engineering: Emerging Opportunities and Challenges
Research on Software Adaptability in Heterogeneous Hardware Environments
Software Defense Mechanisms against Cybersecurity Threats
Study and Application of AI Programming Tools and Frameworks
Synchronization and Communication Mechanisms in Concurrent and Distributed Systems
Building Trust Mechanisms in Software Engineering Based on Blockchain
Application of AI Algorithms in Complex Network Routing Optimization
Synergetic Evolution of Software Ecosystems and Open-source Software
Software Engineering Techniques and Practices for the Internet of Things (IoT)
Innovation in Software for High-performance Computing (HPC) and Large-scale Data Analysis Integration
Ethics in Artificial Intelligence and Responsible Software Development Practices
Integration of Remote Sensing and Machine Learning for Precision Agriculture
Autonomous farm equipment for smart farming efficiency
AI-based technology to improve efficiency and precision measurement for agricultural robots
Image analysis algorithms for precision diagnosis of agricultural diseases
Artificial Neural Network Models for Drought Prediction in Rural Areas
Waste-to-energy technologies for low carbon and reduced pollution in rural areas
Leveraging Internet of Things, Remote Sensing, and Artificial Intelligence for Smart Farm Crop Management
Artificial Intelligence Applications for Sustainable Food Security
Digital Twins in the Agriculture Industry: Applications and Open Issues
Technology for vegetation index analysis and yield prediction using unmanned aerial vehicle (UAVs)

Submission Instructions

Authors who are interested in the above topics can submit their unpublished work to SNPD 2025-Summer conference via [EasyChair](#). A clear indication of the motivation and comparison with prior related work should be presented. Simultaneous submission to a journal or another conference with refereed proceedings is not allowed.

Submissions must adhere to the following guidelines:

- Papers must be formatted using [IEEE Conference templates](#) file without altering margins or the font point.
- The maximum length is 8 pages for a regular paper and is 4 pages for a short paper (including references).
- Proofs omitted due to space constraints must be placed in an appendix to be read by the program committee members at their discretion.

Publication

SNPD 2025-Summer Proceedings will be published by IEEE Conference Publishing Services and will be submitted to be indexed by EI, INSPEC, and DBLP

Conference officers will select outstanding papers for publication in the following journals (www.acisinternational.org):

- *International Journal of Networked and Distributed Computing (IJNDC), Springer, Germany*
- *International Journal of Software Innovation (IJSI), IGI Global, U.S.A.*
- *International Journal of Big Data Intelligence and Applications (IJBDIA), IGI Global, U.S.A.*
- *Studies in Computational Intelligence (SCI), Springer, Germany*

Best Paper Award

Conference officers will select papers for the Best Paper Award and Best Student Paper Awards. (in order to qualify for the award, the paper must be presented at the conference.)

Best Conference/Symposium/Workshop/Special Session Organizer Award

The Award Committee (general chair & CEO) and the Chairs of the conference (conference chair; program Chair: & session chairs) will select the best organizers for their outstanding contributions and services to the success of the conference/symposium/workshop/special session.

Organizing Committee

General Chairs

Hyun Yoe, Sunchon National University, South Korea
Ha Jin Hwang, Astana IT University, School of Creative Industries, Kazakhstan

Conference Chairs

Meonghun Lee, Sunchon National University, South Korea

Program Chairs

Rackwoo Kim, Kongju National University, South Korea
Ryugap Lim, Sunchon National University, South Korea
Ukhyeon Yeo, Gyeongsang National University, South Korea

Registration Chairs

Byeongeun Moon, Sunchon National University, South Korea
Sangyeop Cho, Chungwoon university, South Korea

Publicity Chairs

Byoungchan Jeon, Chungwoon university, South Korea
Hyokyung Chang, Hannam University, South Korea
Jinhee Cha, KKITS, South Korea

Local Arrangements Chair

Ryugap Lim, Sunchon National University, South Korea

Finance Chair

Meonghun Lee, Sunchon National University, South Korea
